EVERYTHING A TRAVELLER NEEDS FOR A PRODUCTIVE TRAVEL EXPERIENCE

Today's business traveller has simple demands. They want to be connected and they want to be productive. So a business travel app must support these needs by giving travellers access to travel information and updates as well as the integrated functionality to streamline their journey and optimise their time on the road.

YOUR INTEGRATED MOBILE TRAVEL EXPERIENCE:

- Flight and hotel bookings stored in one place
- Download e-ticket boarding pass to your travel wallet with
- Quick access to many airlines' online check-in systems with pre-fill details
- Tracking and flight status alerts via in-app display, push and e-mail notifications
- Trip Tools: Add to Calendar, Maps, Weather, Currency Conversion
- Integration capability allows you to share trip details and report your location (connected to Secure)
- Access your itinerary online and offline with automatic itinerary updates and email itinerary parser
- Manually add segments of travel you may have booked independently

MOBILE
